Mission: Maths N Tech Club is dedicated to fostering a passion for mathematics and technology among students. Our mission is to provide a collaborative environment where members can enhance their technical skills, engage in innovative projects, and develop a deeper understanding of mathematical concepts.

Vision: We envision a community where curiosity and creativity drive innovation, and where students are empowered to make significant contributions to the fields of Engineering and Mathematics.

Objectives:

- **Skill Development:** To provide members with opportunities to develop and enhance their technical and analytical skills through workshops, competitions, and projects.
- **Innovation and Research:** To encourage innovative thinking and research by supporting member-led projects and providing resources for experimentation and exploration.
- **Community Building:** To create a supportive and inclusive community where members can share knowledge, collaborate on projects, and build lasting professional relationships.
